

## CERTIFICATION RENEWAL

The Brunswick Labs Certified program is designed to help companies dedicated to the highest product quality standard to provide a recognizable and trusted symbol of antioxidant excellence to their customers.

This letter confirms *Via Viente* has renewed its participation in the Brunswick Laboratories certification program.

Certification term: 1 year from *07/01/2008* to *06/30/2009*

| Product Certified | Test       |
|-------------------|------------|
| Via Viente        | ORAC hydro |

Certification is issued for individual products suitable for testing and requires sample lot-to-lot testing for each product seeking certification, and no less than four (4) lots per year. This guarantees that any product available for sale and bearing the Brunswick Labs Certified symbol comes from a lot that has satisfied program requirement. Companies that produce fewer than four lots per year are required to test each product seeking certification no fewer than four times.

Certification fee will be charged upon initial certification and upon annual recertification.
